

PACKING LIST

Essentials for your upcoming fly fishing trip.

We sell everything you need to make your fly fishing trip successful. We feature & highly recommend Orvis at the lodge, but we sell every top fly-fishing brand in the industry. If you need a new piece of gear, call us and we'll have it waiting for you in your cabin, ready to go!

Fly Rods: A mid-flex or medium action 9 foot, 5 weight fly rod will cover most of the angling conditions you might experience at Three Rivers Ranch. Some guests also like to bring a 4 or 6 weight fly rod for larger dry fly fishing, light nymph fishing, or streamer fishing.

Reels: A single action fly reel capable of holding at least 75 yards of 20 pound test Dacron backing will work perfectly.

Fly Lines, Leaders & Tippet: For all fishing we recommend a weight forward floating fly line in an appropriate weight for the rod and reel. It will allow you to mend easier, for a more natural float. Some guests like to bring an extra spool or another reel with sink tip line for streamer fishing. The best all-round leader for western trout waters is a 9-footer with a 3x or 4x tippet.

Flies: Many of the hatches you'll encounter at Three Rivers Ranch can be imitated with general patterns that approximate the basic shape and size of aquatic insects endemic to the region's waters. Three Rivers Ranch maintains a fully-stocked selection of flies for purchase. If you would like to bring or tie your own selection of flies you're more than welcome to. Give us a call at (208) 652-3750 for in-depth info on patterns.

Waders: Floating from McKenzie River and Skiff style boats, inflatable rafts, and wading are featured at Three Rivers Ranch; therefore, a good pair of chest waders are essential to fully enjoy the fishing opportunities you'll come across.

Clothing: Dress at the Ranch is casual; however, it is suggested that you change from your fishing clothes into more suitable dinner attire. Idaho weather is variable throughout the season, particularly during the months of June, September, and October, so we suggest layering clothing to accommodate sudden temperature shifts. Day temperatures may be quite cool in the morning, stay in the 50's, and in the warm afternoon, perhaps reach up into the 80s. Nights are generally cool. We recommend checking current weather conditions before your arrival.

Rentals: If you are new to fly fishing or if you seldom fly-fish for trout, we can outfit you with rental equipment. Have you ever casted an Orvis Fly Rod? Our demo program allows you to try one of our high-end Orvis fly rods!
